

Acknowledgements

I express sincere thanks to my teacher for his teachings and sincere care. In the two years of my study, he gave me the attention of life and study.

My mentor has not previously been able to express my guidance and influence, and his achievements have been condensed by his mentor's efforts. The vision of the teacher's internationalization, the scholastic attainments of the frontier and the essence, the strict and diligent learning style, all let me forget and deeply affect my work and life in the future.

I sincerely thank the other teachers in the college for their help.
